Snapshot Report

Barrett Adolescent Specific Purpose School received $5,000

Due to tragic and chaotic events in 2014 the school has not been able to maximise the benefits of the funding. We have made some progress towards the original agreement. We have been able to moves towards improving staff capability through continued understanding, and experience of, the Collaborative Reflection Process.

Strategies we have used have included

- Sourcing professionals experienced in the area of health supervision to present information on and hold collaborative reflective sessions
- Continue to research the area of reflection and mental health concerns for adolescents who need to access education

New directions informed by 2014 Collaborative Reflection Sessions

- Staff have researched the available assessment instruments that would enable future students literacy and numeracy, and social and emotional skills, to be assess, and an engaging and positive program be developed.
- Two assessment tools have been identified and will be purchased early in 2014
- A third tool is being investigated
